

## Series on Biomechanics ISSN 1313-2458

International Peer-Reviewed Journal

Edited by the Bulgarian Academy of Sciences and the Bulgarian Society of Biomechanics

[www.biomechanics-bg.org](http://www.biomechanics-bg.org)

The main **Journal topics** are:

- *Mechanics of Biological Tissues and Systems*
- *Molecular and Cellular Biomechanics*
- *Rheology of Suspensions and Physiological Flows*
- *Dental Biomechanics*
- *Functional Tissue Engineering*
- *Orthopedic and Injury Biomechanics*
- *Clinical and Rehabilitation Biomechanics*
- *Sports Biomechanics*
- *Modelling, Simulation and Medical Imaging*
- *Applications of Biomechanics in: Mechatronics, Robotics, Bioengineering, Biotechnology, Medical Physics and Techniques*

**Dear colleagues,**

The primary aim of the Journal “Series on Biomechanics” are to propagate the advances being made in the areas of theoretical and applied biomechanics, highlighting the interface with other multidisciplinary fields and with up-to-date technologies. The Journal will also focus on the importance of new ideas and useful applications in different areas, in order to assure a valuable impact of the biomechanics on the knowledge and the know-how in the future.

The Editorial Board and the Bulgarian Society of Biomechanics will stimulate close relations with other journals and societies in the field of biomechanics and related areas.
